BELLVILLE GOLF CLUB

Centrally situated in the Peninsula (Cape Town, South Africa) within easy reach from all major access routes, this course is a must for all golfers. This 18-hole golf course situated in the Welgemoed suburb of Bellville is set in a sheltered valley of rolling hills with panoramic views of the Hottentots Holland mountains in the distance.

The Par 72, 6000 metre course offers golfers the opportunity of a challenging round of golf. When upgrading the course, the architects made every effort to incorporate the natural contours and features into the course. This resulted in a course that caters for golfers of all levels of expertise. The course is well bunkered, well watered and has 5 water holes. The dams and water canals are filled with birds and wild fowl. Manicured fairways and greens, lined with a variety of trees and floral features add to the tranquil and pleasing setting.
