Order of Merit Competition (for those aged 18 or younger)

[LEARN MORE](#)

OOM has proven to be very popular and extremely valuable to the development of our juniors by providing additional opportunities to play on the course and to accustom juniors to playing in a competitive environment.

Juniors of all golf clubs nationwide who are course ready may participate which includes non members of Durbanville Golf Club.

Players scores count towards the final Order Of Merit at the end of the year. Prizes for leading juniors in their Divisions, as well as the most improved, are awarded at an end of year prize-giving.

The AIM Series - Sharpen Your Short Game

The AIM of the day is to encourage newcomers and young starters to step onto the course without being overwhelmed and to challenge more experienced golfers to test their short game skills. We're levelling the playing field so all ages from 5 and up, and all abilities can take part. No club membership or handicap is required.

Players begin the AIM series at the 25m distance marker and try to reach their AIM based on their handicap status over 9 holes. As each player progresses through the series and achieves their AIM, the distance that they start from will increase by 25m at the next event but their AIM stays the same.

This is an ideal opportunity for families to play together and buddies to challenge each other. A fun day for beginners to experts!
